

NAME OF STREAM (MAP NAME)

DISTRICT NO5
YEAR 1970

ANNUAL REPORT OF SALMON STREAM AND SPAWNING GROUNDS

(LOCAL NAME)

NOTE: A sketch of this stream is required on the back of this form, showing in addition to relevant data such as location of obstructions, general authine of topography along the stream portions of stream bed where spawning occurs, etc., its location in relation to same known point. These sketches should be brought up to date every five years. PARTICULARS OF SPAWNING & SPAWNING CONDITIONS — (Drow lines through names of salmen that do not frequent this stream.)
